Accu-Chute Pouring Wheelbarrow

The patented Accu-Chute Pouring Wheelbarrow is made in America by Brentwood Industries. This incredibly rugged wheelbarrow is the ideal tool for the contractor or heavy-use customer and is backed up by a 10-year limited warranty.

The Accu-Chute represents a significant advancement over the conventional wheelbarrow, incorporating all the standard functionality with the addition of being able to pour with a high degree of accuracy — something the conventional wheelbarrow is unable to do! Combine this functionality with a heavy-duty frame, premium hardwood handles and multiple wheel configurations, and you have a versatile tool that will easily pay for itself many times over in saved time and materials! ■
